Frontend engineer

Programming stacks; NextJS

Hello! I am a Front-end engineer with some knowledge on back-end and web development. Innovative, creative and experimenting on new ideas developed or improved personally or with a team. Excellent presentation and communication skills underpinned by an enthusiastic and proactive approach.

Technical skills, tools & specializations

ReactJS, Typescript, Git, Postgres, Tailwind.

Professional Experience

Freelancer (May/2020 - Present)

Fiverr.com

I design and create prototype websites and graphic design on the side.

Skills; Tailwind, Figma.

Team Member (May/2021 – June/2022)

KFC Eldoret

I joined KFK(Kuku Foods Kenya) in 2021 due to monetary reasons. I later left to pursue my passion which is programming.

Accomplishments:

- Team member representative for Kenya west KFC shops.
- Head chef

Salesman (2018 - 2019)

Klout.shop

I did this job as I studied in Moringa. I got to learn how to communicate to people and how to deliver good customer service.

Accomplishments:

- Increased sales by looking for hotspots where my product would be marketable.

Education

Software Engineering, Moringa school *(April 2019 - Sep 2019)*

- Here I got to learn how to make a responsive website using Python, Angular JS, HTML and CSS. Also got the chance to learn basic knowledge of being a developer, like using git.
